

Each standard grave plot will have a **Memorial Tree**. Our fees include the cost of the tree and its early years' protection from rabbit and deer damage using a tree guard supported with a stake. We plant trees at an annual tree-planting day, usually in late November, and the family and friends of those buried in the previous year are warmly invited to participate.

We only plant native or naturalised British trees from this list. Some species are omitted because they either do not flourish on our site or suffer from common diseases. As part of our role in good woodland management we may, after a minimum of 15 years, remove some trees – especially those that have not grown well – to thin the planting and allow those remaining to thrive. We will replace, free of charge, any tree that fails within 5 years. As trees cannot be regarded as long-term fixtures, we encourage the placement of a slate **Memorial Plaque** to identify graves on a more permanent basis.

Memorial Plaques

We supply slate plaques for a **fixed price of £260** which includes up to 100 characters. Additional lettering and discreet emblems may be added at extra cost.

We only permit memorial plaques that are:

- 12 x 12 inches x 1 inch thick of natural slate with a matt finish i.e. not polished.
- Lettering in-filled white or not painted. We reserve the right to approve the design and wording.

They must be laid flat on the ground at the head (west end) of the plot or, in the case of a burial of ashes, over the urn. They may be placed adjacent to memorial trees outside of charted groves.

We suggest that the ground be left to settle for a few months before plaques are placed. We will place it in position for you unless you tell us that you prefer to do so yourself.
